

Password generator the app which is on play store is a bit difficult to use In this app the functions are hard to use and may options like omit, seed, are no need to use but the app make it hard.

The screenshot shows the 'Password Generator' app interface. At the top, the status bar displays the time 8:14 and various connectivity icons. The app title 'Password Generator' is in a dark blue header. Below the header, there are three checked checkboxes: 'Lower case', 'Upper case', and 'Numbers'. There is an unchecked checkbox for 'Symbols' with a list of characters: '!"?.,:;\$%&@~#()<>{}[]\_\*-+^=/\_\'. Below these are three more settings: 'Unique characters' (unchecked) with a 'Passwords' count of 1, 'Similar characters' (checked) with a 'Length' of 20, and 'Omit y and z' (unchecked) with a 'Seed' field. There are two large buttons: 'GENERATE' and 'COPY TO CLIPBOARD'. Below these buttons, the generated password '8MYSYNGUbLOK2ErJ4RE5' is displayed. At the bottom, a green bar indicates the password is 'Very strong (112 bits)'.

### Password Generator

☒ Lower case    ☒ Upper case    ☒ Numbers

☐ Symbols: `!"?.,:;$%&@~#()<>{}[]_*-+^=/_\`

☐ Unique characters    Passwords:    ☒ Similar characters    Length:    ☐ Omit y and z    Seed:

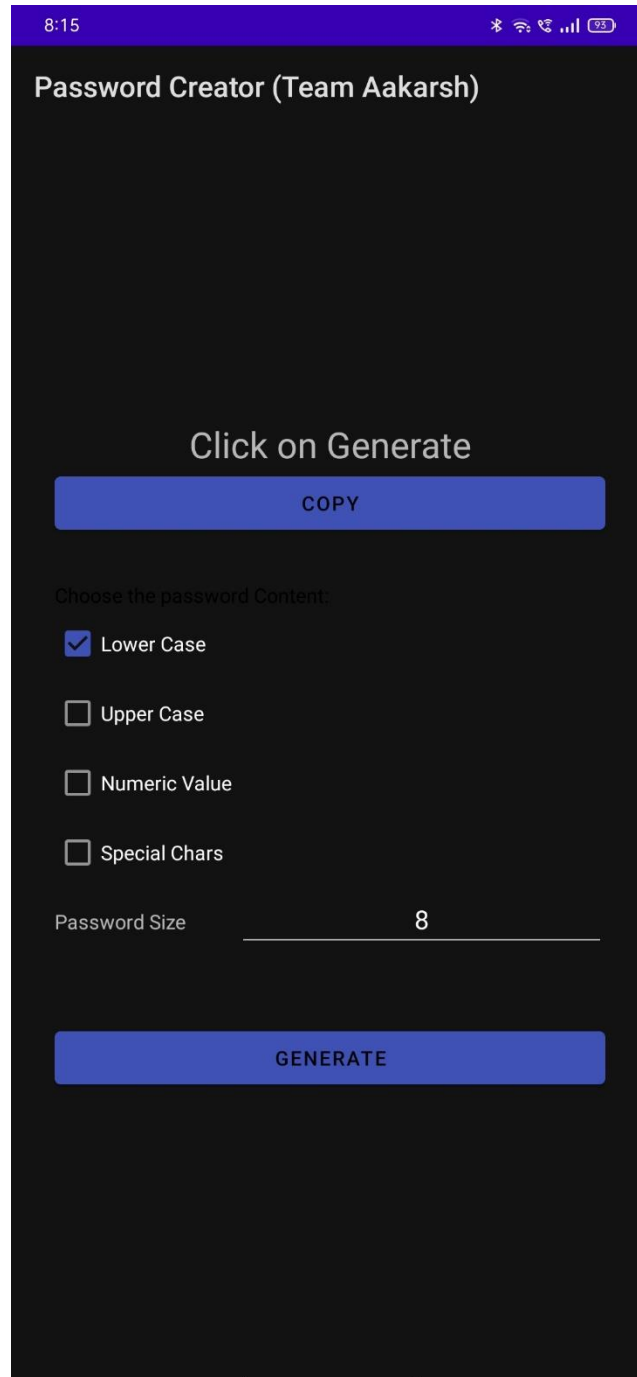

**GENERATE**

**COPY TO CLIPBOARD**

**8MYSYNGUbLOK2ErJ4RE5**

**Very strong (112 bits)**

In Our Team project we take a simple way like what we need like Special characters, Numerical, Upper Case and Lower case so in this we easy to just click and apply the value and characters and it have different theme and easy to get a Suitable Password.

The image shows a mobile application interface for a password creator. At the top, a status bar displays the time 8:15, signal strength, and battery level at 93%. The app title "Password Creator (Team Aakarsh)" is centered at the top. Below the title, the text "Click on Generate" is displayed. A blue button labeled "COPY" is positioned below the text. Underneath, the section "Choose the password Content:" contains four checkboxes: "Lower Case" (checked), "Upper Case", "Numeric Value", and "Special Chars". Below these options, the "Password Size" is set to 8. A final blue button labeled "GENERATE" is located at the bottom of the interface.
